# What is GoGreen Financing?

gogreen  
FINANCING™

GoGreen Financing helps homeowners, renters and business owners find participating contractors and approved lenders to make their properties more comfortable and efficient.

The financing programs featured on GoGreenFinancing.com are administered by the State of California with support from the state's investor-owned utilities: PG&E®, SDG&E®, SCE®, and SoCalGas®\*:

\*Pacific Gas and Electric Company (PG&E®), San Diego Gas & Electric Company (SDG&E®), Southern California Edison Company (SCE®) and Southern California Gas Company (SoCalGas®) are not making an offer to lend and have no role in reviewing or approving your financing application. If you and a lender enter into a financing arrangement for energy improvements, that arrangement will be entirely between you and the lender, and PG&E, SDG&E, SCE and SoCalGas shall not be liable for the lender's acts or omissions.

FINANCING™

By introducing state-administered financing programs, GoGreen Financing connects Californians with opportunities to:

- ✓ Make residential, business, and multifamily properties more energy efficient
- ✓ Overcome the need for upfront cash to make energy efficiency improvements
- ✓ Spread out the cost of energy efficiency projects over time
- ✓ Help improve the comfort of their home or business through energy upgrades

**GoGreen Home Energy Financing** is designed to help California homeowners and renters find attractive financing for their energy efficiency projects.

- ✓ No home equity needed
- ✓ Competitive rates
- ✓ No closing costs or fees
- ✓ No money down
- ✓ Can be used to fund other nonenergy improvements, such as landscaping or home renovations and repairs
- ✓ Available to borrowers with a wide range of credit scores and incomes
- ✓ Broad list of energy efficiency projects available
